GRANIT™ Detecto SmartX™ 8078 blue

SMART IS THE KEY

The know-how ABUS has accumulated over decades has resulted in the development of the 8078 SmartX™ alarm disc brake lock.

The 8078 SmartX™ combines the highest mechanical security with smart technology. The ABUS One app makes operation convenient and the proven ABUS SmartX™ technology ensures security. This is how a smartphone becomes the new key.

A new interpretation of mechatronic motorbike locks: combined with the loud 100 dB alarm, this lock offers even better protection for your motorbike against possible theft.

Technologies

- 13.5 mm locking bolt made of specially hardened steel
- Easy operation via the ABUS One app (previously SmartX) – for iOS and Android
- Bike lock can be opened and locked without a key – keyless function based on proven ABUS SmartX™ Bluetooth® technology
- USB-C port
- Storage of the motorbike's last parking location
- Alarm function with min. 100 dB for 15 seconds, then automatic re-arming
- 3D position detection – detects vibrations and the smallest of movements in all three dimensions and triggers an alarm
- The bolt, housing and structural parts of the locking mechanism are made of specially hardened steel
- Thanks to its automatic brake disc detection system, the lock can be transported closed without the alarm being activated
- Acoustic and visual signals (multi-coloured LED) indicate the battery and activity status
