Hubble princess S

PROTECTION YOU CAN BARELY FEEL

This helmet meets all the requirements parents could have for a children's helmet: it not only reliably protects the head in the event of any accidents, but also provides protection against sun and insects.

This is a helmet that offers unparalleled protection and comfort. Thanks to the In-Mould construction, the ABUS helmet is more stable and also lighter than other models. Your child will barely notice the Hubble, but will be well protected. The Sun Protection System reduces exposure to direct sunlight on the scalp due to the obliquely-inclined ventilation openings. This protects your child against harmful UV radiation and sunburn or sunstroke. The large ventilation openings with foamed-in fly screens keep your child's head cool and offer protection against insects.

Technologies

- In-Mold for a durable connection of the outer shell with shock-absorbing helmet material (EPS)
- SPS – Sun Protection System
- Visor-like front edge ensuring enhanced protection for the face
- Deep temple and neck area for increased all-round protection
- Lower edge protection against damage caused by the typical activities of a child
- ZoomLite - precise adjustment system
- LED light in the adjustment wheel for additional safety when riding in darkness and at dawn or dusk
- Size adjustment with a full ring made from especially hard-wearing and mouldable plastic for optimum stability and form fitting
- Excellent ventilation with 6 air inlets and 6 air outlets
- Removable and washable soft padding

Hubble princess S

- Foamed-in fly nets in all front openings
- Passive safety thanks to large reflector
- Fidlock magnetic fastening

Operation and use

- Baby and toddler helmet for everyday use

Tips

- This helmet was specially developed for children and their specific requirements
- The innovative helmet design with the SPS – Sun Protection System reduces the amount of direct sunlight and therefore protects the child against sunburn and sunstroke, while at the same time providing excellent ventilation
- The back of the helmet is flat and therefore allows the child to relax when travelling in the child seat or trailer
- Soft straps that are simple to fit thanks to practical sliders
- Winter Kit and Rain Cap available as accessories
