

CityChain™ 1010/110 black Moto

Ideal protection for when there is a medium risk of theft

The ABUS CityChain™ 1010 Chain Lock ensures your favourite motorbike is well-protected against theft.

This ABUS lock-chain combination is available in three different lengths, from 110 to 170 cm. Often, the best places to lock your bike are already in use, especially in the city. The 170 cm version of the ABUS CityChain™ 1010 Chain Lock ensures you're well prepared for situations such as these. A 9 mm thick hexagonal chain with a textile sleeve and an extra secure cylinder, which also protects against lock picking, keep thieves away.

Technologies

- 9 mm hexagonal chain with fabric sleeve to prevent damage to the bicycle's paintwork
- The chain, the lock body and supporting elements of the locking mechanism are made of specially hardened steel
- ABUS Plus cylinder for high protection against manipulations, e.g. picking
- Automatic cover for the keyhole against dirt and corrosion

Operation and use

- Good protection against medium risk of theft
- Recommended for securing motorbikes and scooters
- The longer the chain, the easier the bicycle can be locked to a fixed object

Tips

- The lock can be ordered keyed alike with other locks, all of which are operated using the same key or locking method
- Very easy handling, because only one end of the chain has to be locked
