COMPACT THEFT PROTECTION

The Trigger Alpha 355 2.0 offers proven ABUS anti-theft protection for scooters.

The 5 mm locking bolt, made of specially hardened steel, secures your scooter on the road or in the garage. Thanks to the double T-bolt locking mechanism, the lock is firmly anchored in the lock body after locking, preventing it from being forced open by spreading. With its compact design, it is easy to transport and quickly ready for use - an affordable and practical solution for everyday use. Two keys are included to give you maximum flexibility.

Technologies

- 5 mm locking bolt
- Double bolting thanks to the T-bolt, which anchors itself in the lock body after locking and prevents attempts to break the lock open by spreading
- The bolt, housing and structural parts of the locking mechanism are made of specially hardened steel
- Two keys included

Operation and use

- Basic protection where there is a low theft risk
- Recommended for securing scooters

Tips

- Disc brake locks are the most compact category of motorbike locks and are therefore easy to transport
- To increase security when parking for longer periods, it is advisable to also secure the motorbike to a fixed object
