

Catena 680/75 LL black + bracket URB

Seite 1 von 2

ABUS chain lock for better protection against theft

The ABUS Catena 680 Chain Lock is reliable. The 6mm square chain inside the black textile sleeve sees to that. In proven ABUS quality, it is made of specially hardened steel and the textile sleeve prevents the chain from scratching your bike's paintwork.

Concerning ABUS quality, the Catena 680 black Chain Lock locks with a key rather than a combination code. That said, you only need the key for unlocking, because to lock the chain, you simply need to connect the two ends together and your bike is secured.

Technologies

- 6 mm square chain with textile sleeve incl. additional plastic sleeve to prevent damage to the paintwork
- The chain is made of specially hardened steel

Operation and use

- Good protection at low theft risk
- Recommended for the protection of low-range bicycles

Tips

- Very easy handling, because only one end of the chain has to be locked
-
