

Circuit Breaker Lockout

Seite 1 von 1

ACTIVE PROTECTION AGAINST ACCIDENTAL SWITCHING ON

Especially in the control cabinet, this can help prevent accidents with serious consequences.

The circuit breaker rocker is locked in the Off position by the E201 lock, preventing access by unauthorized persons.

Technologies

- High-quality materials: long-lasting, robust and non-conductive
- Easy-to-use with screwing mechanism for secure fixation
- Can be used universally on common single-pole circuit breakers
- With adapter for blade-type electric fuses

Operation and use

- Block access to single-pole circuit breakers during maintenance

Variants

- Colour: Red
