

TIGHT FIT

External window blind lock for reliable protection against unauthorised sliding up.

Roller shutters must be safe. To be protected against unauthorised pushing up by criminals, you should equip your roller shutters with a strong security device. The steel pin of this locking device is pressed from the inside into a drilled slat and thus locks the roller shutters. The fuse comes in pairs and cannot be seen from the outside after assembly.

Technologies

- Spring loaded opening mechanism
- The solid steel pin protects the roller shutter from being lifted up
- Undetectable from the outside
- To be fitted in pairs on the left and right side of the frame

Operation and use

- Window roller shutters - protection at night time
- The locking pin locks into the roller-shutter blade
- To be fitted in pairs on the left and right side of the frame

Variants

- Finishes: brown, white
