

# 27" 4K Ultra HD LED Monitor

Art.-Nr. TVAC10071

Seite 1 von 2

## Detailed surveillance images in 4K

The powerful LED monitor with a 27" (inch) display size shows you detailed surveillance images in 16:9 format and in 4K ultra HD resolution.

## 4K/ultra HD monitor for easy identification

Your solution to ultra HD video surveillance of properties and people isn't complete without the right screen. You'll see accurately detailed images in ultra HD quality on the 4K LED monitor from ABUS so you can monitor, easily identify individuals and quickly resolve the situation. Thanks to a rapid reaction time (of just 5ms), surveillance pictures in full HD are displayed on the monitor almost in real time. It shows quick movements on the screen clearly and continuously, without any distortions, flickering or ghost images. In short: The ideal choice for complete 4K video systems.

## Connections for a variety of uses

Connect the monitor to a recorder or PC with flexible options. Thanks to an HDMI connection and a DisplayPort input, the monitor is optimally suited to displaying images in Ultra HD. Integrated loudspeakers and a 3.5 mm PC audio output (for connecting headphones) are also included in the equipment.

## Energy efficiency for long-term monitoring

The efficient LED display ensures very low power consumption - ideal for long-term use.

## Simple installation with VESA brackets

The monitor is compatible with standard VESA brackets for quick installation on the wall or ceiling.

Tip: Ultra HD from the camera to the monitor, with perfectly coordinated 4K cameras and 4K recorders, you get the full set from ABUS.

## Technologies

- 27" LED monitor with 4K ultra HD resolution: 3840 x 2160 pixels
- Fast reaction time (5 ms) for flowing images
- Brilliant colour display and high contrast in 16:9 format
- Ideal for high-resolution 4K recording systems
- Graphical on-screen display (OSD)
- Connections: HDMI, DisplayPort (DP), PC audio output 3.5 mm
- Integrated loudspeaker
- Low power consumption for long-term monitoring (LED technology)
- Compatible with VESA brackets for wall and ceiling installation

## Technical data - 27" 4K Ultra HD LED Monitor

AC voltage supply	100~240 V
Brightness	350 cd/m <sup>2</sup>
Colour levels	16,7
Comb filter	3D
Connections	1 x HDMI, 1 x DP, 1 x Audio Out
Contrast ratio	1000:1
Dimensions	615 x 400 x 250 mm
Display surface	matte
Gross weight	6,55 kg
Height	400 mm
Housing material	Plastic
Image format	16:9
Input	1 x HDMI, 1 x DP
Length	250 mm
Loudspeaker	2 x 2 W
Max. humidity	80 %
Max. operating temperature	60 °C
Min. operating temperature	-20 °C
Monitor type	LED
Net weight	5,07 kg
Power consumption	56 W
Reaction time	14 ms
Screen diagonal	27 in
Signal detection	Automatic
Viewing angle horizontal/vertical	178° x 178°
Width	615 mm
