DESIGN HIGHLIGHT IN THE CITY

The HUD-Y ACE is the perfect companion in the city: It symbolises the urban lifestyle and is a real eye-catcher in any city.

The popular rechargeable rear LED on the HUD-Y models protects cyclists in often-confusing urban traffic: With four light modes, the magnetically attachable USB light strip becomes a glowing helper on the road. In the ACE version, the visor replaces the HUD-Y's flip-up and flip-down visor. Depending on the situation, bikers can slide the integrated visor up or down. The helmet becomes a stylish accessory thanks to various classic colour designs. For all those who want to be stylish and safe while cycling.

Technologies

- Multi Shell In-Mold: Manufacturing process in which shock-absorbing helmet material (EPS) is foamed into multiple polycarbonate outer shells - for a long-lasting, robust bond
- Zoom Ace Urban: finely adjustable, height-adjustable adjustment system with easy-grip adjustment wheel for individual fit
- Helmet fits well on ponytail wearers - height-adjustable adjustment system at the back of the head creates space for ponytails
- Visor to protect the face from rain, wind and insects
- Wide-angle LED light with high power and magnetic attachment
- Depending on the mode, the light has a maximum luminosity of nine lumens. The four modes are Eco Mode, Power Mode, Blink Mode and Pulsing Mode
- LED light recharges quickly via micro USB. The colour of the LED indicates when the charging process is finished

Seite 2 von 2

- ActiCage: Reinforcement of the helmet structure, which is integrated into the EPS hard foam of a helmet. The cage architecture creates space for large ventilation openings and serves to stabilise the helmet.
- FidLock magnetic buckle for opening and closing the belt quickly
- TriVider: flat webbing divider, not height-adjustable - however, it allows the webbing to be moved laterally (to the right or left) to fit the position of the ear

Operation and use

- Stylish adult helmet for everyday and leisure use
- Suitable for use in wind and weather, thanks to the slide-up glass visor

Technical data - HUD-Y ACE champagne gold M

Finish	matt
Head size	54-58 cm
Height	16,2 mm
Length	21 cm
Peak	No
Size	M
Smart - Crash Detection	No
Visor	Yes
Weight	430 g
Width	25,6 mm
backlight	Yes
color of facets	brown, gold
design color	champagne gold
EAN	4003318991691
