

Steel-0-Chain™ 9808/85 black

THE ANSWER TO PICKING AND TAMPERING

The high-quality “Plus” cylinder of the Chain Lock Steel-0-Chain™ 9808 is the safest that ABUS currently offers

No matter if someone tries to break into the bike lock or the “Plus” cylinder with special tools - they won’t get very far. The hidden “Plus” cylinder is the safest disc cylinder currently used in ABUS products.

Technologies

- 8 mm thick square chain
- The chain, the lock body and supporting elements of the locking mechanism are made of specially hardened steel
- Automatic keyhole cover to prevent corrosion and the ingress of dirt
- ABUS Plus cylinder for high protection against manipulation attempts, e.g. picking

Operation and use

- Good protection at medium theft risk
 - Recommended for securing good bicycles
 - The longer the chain, the easier the bicycle can be locked to a fixed object
-
