

Aduro 3.0 LED velvet black M

SPORTY RIDING IN THE CITY AND THROUGH THE COUNTRYSIDE

This all-rounder is the ideal bike helmet for all those who navigate their way through busy city traffic on their two-wheeler - but is also just as suitable for those who prefer a sportier riding style.

Because the Aduro 3.0 LED offers safety and comfort - and it looks sporty and smart at the same time. This city helmet protects the rider with a streamlined design and optimised ventilation for sporty riding; stylishly modern, it offers protection on city streets. Both its design and the wide range of colours make the urban bike helmet the perfect everyday companion. Comfort meets safety

To ensure that the helmet sits comfortably and securely on the head, it can be individually adapted to different head sizes using an easy-grip adjustment wheel. The bike helmet owes its stability to the in-mould process. Here, the impact-absorbing rigid foam is injected into the outer shell. The helmet has an LED light for better visibility.

The Aduro 3.0 provides a good feeling of safety on every route.

Technologies

- In-mould design for a durable connection with the outer shell with shock-absorbing helmet material (EPS)
- Size adjustment via a full ring made of 2 plastic components for optimum stability and positive fit
- Excellent ventilation provided by 7 air inlets and 6 air outlets
- Ponytail compatibility: the helmet is very suitable for riders with a ponytail
- Removable peak
- With LED light

Aduro 3.0 LED velvet black M

Seite 2 von 2
