

SPORTY HALF-FRAME SAFETY GLASSES AT WORK

The Ocudo half-frame safety glasses offer comprehensive protection against UV light and mechanical hazards - in a modern sunglasses design.

They prevent dust or splinters from entering the eye during work and causing damage. Safety glasses are the right companion for you if you need to reliably protect your eyes from foreign objects when grinding, drilling or servicing systems, for example.

Equipped with the ABUS Premium VisiLens coating, the lenses remain fog-free both on the inside and outside. The coating is extremely scratch-resistant and hard-wearing - the result of a specially applied technology.

Soft, anatomically adjustable nose pads ensure a high level of comfort and a secure fit. Ideal for demanding work environments, the Ocudo safety glasses offer reliable protection and comfortable wear over long periods of time.

Two variants of the safety glasses are available: with clear or tinted lenses.

Technologies

- Sporty and dynamic design: Half-frame safety glasses made from hard-wearing polycarbonate, streamlined temple design
- Robust material: PC lens (PC = polycarbonate) ensures reliable protection and at the same time offers all-round visibility, antistatic
- Innovative safety glasses technology: Premium ABUS VisiLens coating, which means that the safety glasses are extremely scratch-resistant and remain permanently fog-free (inside and outside); NK-certified, shock-absorbing, high impact resistance
- Highly comfortable temples: lightweight polycarbonate material for all-day comfort, close-fitting, flexible and soft, non-slip without causing pressure points
- Optimum fit: anatomically shaped nose area with soft nose pad for ideal fit and outstanding comfort
- Optical class 1
- Clear variant: Standard: EN166 / EN170 / ANSI Z87.1

- Tinted variant: Standard: EN166 / EN172 / ANSI Z87.1

Operation and use

- Protection from optical hazards such as UV light radiation
- Protection against mechanical hazards such as pointed objects, impacts or foreign bodies such as splinters and dust
- Particularly suitable for moderate amounts of dirt
- Use cases include industry and manufacturing, building and construction, power generation and supply, agriculture and horticulture, road construction and civil engineering, forestry and wood processing

Tips

- Accessories: Glasses strap and bag
- Available with clear and tinted PC lens

Variants

- Colours: black-grey
- Clear PC lens
- Tinted PC lens

Technical data - Ocudo tinted

Eyewear type	Safety goggles
