Raydo Pro 1440/85 black TexKF

ABUS
Security Tech Germany

Number code security

The ABUS Raydo Pro 1440 Cable Lock has an 85cm-long cable which you can use to lock your bike or bike parts quickly.

Configure the number code after purchase. If somebody else is going to use the lock, simply tell them the code. The special feature of the ABUS Raydo Pro 1440 Cable Lock is its Press 'n' Shine function. LEDs light up the number reel so you can always enter the correct code quickly, even in the dark. That way, nobody can pick up your bike or cycle away with it even at night.

Technologies

- 15 mm thick, high-quality steel cable
- Plastic coating to prevent damage to the bicycle's paintwork
- The number code can be set individually
- Press'n Shine function — LED-lit number reel for easy handling in the dark

Operation and use

- Great protection where there is a low risk of theft
- Ideal for securing low-cost bicycles

Tips

- Cable locks boast excellent flexibility with a relatively low weight
- The combination lock is great for use by several people
