

THE NARROW WINDOW LOCK

Narrow additional security lock for aluminium and plastic windows.

Are you looking for an inconspicuous additional security lock for your aluminium and plastic windows? This fuse is particularly narrow, but still robust. The lock casing of the fuse is mounted on the window wing, the lock case on the frame. Once in place, the claw bolting steel bolt provides a pressure resistance of over one tonne. Due to its design, the additional security lock is suitable for narrow assembly conditions.

Technologies

- VdS and DIN-certified
- Resists more than one ton load
- Solid steel bolt with the ABUS typical claw bolts
- Sturdy lock case
- Universal range of use
- Incl. two keys
- Ideally suited for tight installation spaces
