Back
Create

» Plan a system

Creating a new system is dead easy; just fill in basic details (system, your own profile and project) and start creating the matrix. Factory profiles marked with ⚡ are available for X-Press service.*

Detail dialogues

- ✓ On top of the typical required data for your chart, you can open cylinder or key details, to select special options and features
- ✓ The features shown come directly from our ERP, so you can only select compatible options

Plan a master key systems and specify:

- ✓ Door names
- ✓ Cylinder types/item numbers
- ✓ Cylinder lengths
- ✓ Keys and connect them to doors/cylinders
- ✓ Check X-Press Service

Excel functionality

- ✓ OBS is designed to work seamless, almost like an Excel spreadsheet

Foolproof data input

- ✓ Item nos. are checked against our live database
- ✓ Special features/options would only be shown when available and feasible
- ✓ Incorrect inputs would be highlighted in red and not allow you to complete the order

» Basic dialogue

* To offer you our X-Press programme our team also must work "X-Press". Hence we kindly ask for your understanding that changes of your order cannot be included after receipt of order confirmation.

ORDERING YOUR MASTER KEY SYSTEM

You can choose between following order types:

- ✓ Calculated and built at the factory
- ✓ Calculation only - when you wish to do it yourself
- ✓ Get a quote for a factory supplied system

» Item selection

* Before you take the plunge and order, don't take any risks! You can print the lock chart in advance and ask your customer to approve it.

- ✓ Let us know your preferred delivery date for your order
- ✓ Specify your individual order number
- ✓ Option: add a comment to your order

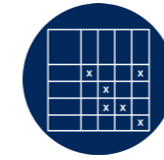

» Order details

» Complete your order

- ✓ You can save on shipping costs by combining multiple orders
- ✓ We also offer the option to use an alternative delivery address

MANAGING YOUR MASTER KEY SYSTEMS IN YOUR OWN CUSTOM PROFILES

We will grant you online access to all relevant data for your daily business.

System Number	Object	Customer System number	System	Last Change
57815			Vitess 1000 + Vitess 2000	Jul 15, 2019 2:31 PM
2919B			Vitess 1000 + Vitess 2000	Jul 15, 2019 2:28 PM
1699E			Vitess 1000 + Vitess 2000	Jun 27, 2019 2:50 PM

Access your current documents at any time

- ✓ Material lists
- ✓ Cutting lists
- ✓ Pinning lists
- ✓ Cylinder/key lists
- ✓ Master key chart

Further benefits

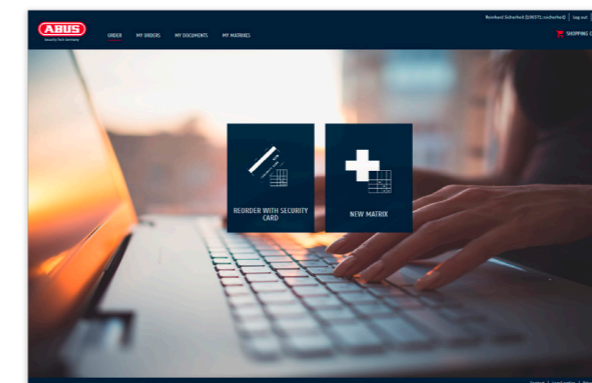

- ✓ Bitting/cutting values and profile, directly displayed, helps you easily cut new keys
- ✓ You can log every key copy for your key administration

Export key cutting machine interface data

- ✓ You can save a lot of time by importing the file with all cutting values into your key cutting machine

- ✓ Export keys as batch jobs for your own assembly
- ✓ Simplify your organisation with internal order management
- ✓ Order overviews for your technicians

MANAGING MASTER KEY SYSTEM EXTENSIONS

- ✓ You always access the latest update of your master key charts
- ✓ Reorder additional cylinders/keys for an existing suite
- ✓ Add and order new extensions
