

IDEAL FOR OUTDOOR: OUR COMBINATION LOCK 183AL

It is ideal for securing medium value assets and objects.

Thanks to the aluminium lock body and the code dials and internal components made of stainless steel, this lock is very weatherproof and therefore suitable for outdoor use. Another advantage is that you can replace the shackle so that the lock can quickly be adapted to individual requirements. The five code dials allow 100,000 different combinations, thus increasing the lock's security. The precision locking mechanism also provides extremely high picking protection.

Technologies

- Solid aluminium lock body
- 5-digit number code – can be individually set
- Interchangeable shackle in different heights and materials. Heights HB19, HB25, HB38, HB50, HB75, HB100
Materials IB (stainless steel), MB (brass), SA (steel)
- Double bolted shackle
- Number dials and internal components made of stainless steel for greater corrosion resistance
- Precision locking mechanism – greater protection against picking

Operation and use

- Security for items/goods of medium value or where there is an average risk of theft
- For securing doors, gates, lockers, tool boxes, cellar windows, sheds, switch boxes, cupboards, etc.
- Ideal for use in bad weather
