## Protecting Mobile & Outdoor Equipment

ABUS offers a wide range of security and safety products for mobile, outdoor and leisure. Protecting equipment, assets and people on the move presents a wide range of challenges and as such, the ABUS mobile range is a diverse offering, everything from bike and motorcycle locks, chains and brackets through to bungee sets, mobile alarms, luggage locks and even fire safety products.

### Protecting your Mobile Equipment

ABUS has a strong heritage in the bike and motorcycle worlds, having developed robust and high quality locking products. The new range for the UK boasts two different types of bike lock; the D Lock (which is sometimes also referred to as a U Lock or U Shackle Lock) is now a common design and the Folding Lock is a product that is becoming more and more popular as cyclists and people enjoying other leisure pursuits, look to combine versatility, flexibility and security. The ABUS products have a Security Rating that we use to help our trade partners and end-users to identify correct usage and ability to withstand different types of attack levels and many of the locks have gained Sold Secure status, an insurance-approved rating.

We have a wide range of security chains and anchoring solutions in our portfolio which offer our customers the ability to secure moving equipment to a fixed point. The value, size and perhaps location requirements of the item you are securing will determine the type, size and robustness of the chain system that you will require.

### Securing your Outdoor Adventures

ABUS is a family business at heart and we know the value of spending time with friends and family in nature. We offer an extensive range of products ideally suited to outdoor, leisure and exercise.

### Security

Keeping property secure when you're on the move can be challenging. How do you secure your keys when you go out for your hike or bike ride? How do you secure your belongings when you leave the campsite or go for that swim? ABUS is continuing to develop a wide range of flexible solutions to protect property in-transit. One of our latest products the ABUS AlarmBox is a great 'easy-to-carry' solution for adding some extra security to your vacation.

### Safety

Security is important, but so too is Safety. ABUS has developed a range of safety solutions, not only for the home or the office, but also perfect for carrying with you on leisure trips. The ABUS Fire & Safety range offers portable solutions such as Fire Spray, Fire Blankets, Smoke Alarms and our latest innovation; the AirSecure CO2 detector for monitoring the clean flow of air.

## D LOCKS – FACILO 32 & SINUS PLUS 471

[GO TO PRICE LIST](#)

The D Lock (sometimes referred to as a U lock) is now a traditional style of bike lock, designed to resist attack by methods such as bolt cutting. The shape of the lock also provides a relatively lightweight and wind resistant solution for fixing on to the bike frame.

### Facilo 32

#### Technology and features

- Hardened 12 mm round shackle
- ABUS top-quality locking cylinder
- Also available with 10 mm high-quality loop cable
- PVC casing to protect paintwork

## FOLDING LOCKS – BORDO™ UGRIP 5700 & BORDO™ CLASSIC 5900

[GO TO PRICE LIST](#)

The Folding Lock features steel bars connected with special rivets, which fold together like a yardstick. The ultra-sturdiness of the bars and body (manufactured from specially hardened steel) is matched by the flexibility of the BORDO™ folding system. The high-quality ABUS Plus cylinder also provides a high level of protection, for example against picking. A soft two-component casing prevents damage to the bike's paintwork.

### BORDO™ uGrip 5700

#### Technology and features

- 5 mm steel bars
- Colour-matching lock body
- Bars are linked with special rivets
- High-quality automatic cylinder
- ST holder can be bolted or strapped to the bike frame
- RH5 key
- Made in Germany

# CHAIN LOCKS – 6, 8, 10, 12KS

[GO TO PRICE LIST](#)

## Security Chains

Padlocks in combination with cables and chains are ideal for securing a wide range of objects individually. High Security chains made from hardened steel are not only suitable for securing mobile equipment such as bikes but also any outdoor objects on company premises and even perimeter protection.

Security chains also provide flexible protection in public areas too; from chairs in front of cafés to machinery on building sites.

- Security chains made of special hardened steel
- High security against many types of aggressive attacks
- Fabric sleeve prevents paint work and chrome from damage
- Customised lengths available
- Available in various chain thicknesses: 6 mm, 8 mm, 10 mm, 12 mm and 14 mm

## TL-517, TL-525 & TL-530

[GO TO PRICE LIST](#)

Our ABUS SecLight torches have high-quality LED lights to provide a light in the dark. The TL-517 is ideal for keeping in your bag, backpack, glove box in the car or mobile home. The TL-525 is ideal for at home and on the go, and the TL-530 for use in hobbies and DIY. Thanks to its square shaft, you can set it down anywhere.

The torch range includes accessories such as brand-name batteries, a bag with hook, option for fastening to belt and loop.

### Technology and features

- Powerful stroboscope (flashing light function) – can be used as a warning
- Can be used outdoors
- **TL-517** – High-quality compact lamp to take anywhere. Ideal for on the go, in the car, travel by trekking or camping
- **TL-525** – Large torch for home. Ideal for on the go, in the car, travel by trekking or camping. Lasts a long time and high light intensity
- **TL-530** – Large safety lamp with powerful LED. Ideal for hobbies and DIY
- Additional function: press two to three seconds for stroboscope flashing light
- With zoom function
- Protection class IP44
- Material: Aluminium with plastic handle
- **TL-517** – Modes: High Power – Medium Power – Red Light – Off  
Light time: High Power approx. 2 hours, Low Power approx. 4 hours  
Includes batteries (4 x type AAA)
- **TL-525** – Modes: High Power – Medium Power – Red Light – Off  
Light time: High Power approx. 3 hours, Low Power approx. 5.5 hours  
brand-name batteries. Includes batteries (3 x type C (LR14))
- **TL-530** – Modes: High Power – Medium Power – Off  
Light time: High Power approx. 2.5 hours, Low Power approx. 4 hours,  
Eco Mode 5 hours. Includes batteries (4 x type C (LR14))
