

BORDO™ Big Alarm 6000KA/120 black + bracket SH

Seite 1 von 2

ALARMINGLY SECURE

The BORDO™ Alarm 6000KA offers good theft protection for bikes thanks to the alarm function and advanced locking cylinder.

Equipped with a modern locking cylinder system, the XPlus, you get the first ABUS alarm folding lock with improved protection. The XPlus cylinder ensures that thieves have an even harder time with manipulation attempts such as picking. In addition, a loud alarm of up to 100 dB attracts attention in the event of an attempted theft. Thanks to the intelligent motion sensor technology, the bike lock can even distinguish between small vibrations and persistent theft attempts. The 3D Position Detection ensures that when the wheel is nudged briefly, for example by a football, only a short beep sounds at first. Stronger and longer lasting movement triggers the loud alarm sound.

Want to be on the safe side? Then drive thieves to despair with the BORDO™ 6000KA!

Technologies

- 5 mm bars with durable, soft-touch coating to prevent damage to paintwork
- The bars and body are made of specially hardened steel
- Alarm at a volume of at least 100 dB for 20 seconds, followed by automatic reactivation
- 3D position detection - detects vibrations and the smallest of movements in all three dimensions and triggers an alarm
- Smart alarm – the lock emits small warning beep in the event of minor and brief vibrations, e.g. if a football bounces nearby
- Acoustic signal indicates battery status and active status

BORDO™ Big Alarm 6000KA/120 black + bracket SH

Seite 2 von 2

- Bars are connected by special drill resistant rivets
- ABUS XPlus cylinder for the greatest protection against manipulation, e.g. picking
- SH carrier included
- Transport position allows for the lock to be folded for transport without activating the alarm.
- Alarm position - insert locking bar completely; the alarm will be activated after locking
- Speaker protected from attacks by locking bar.

Use and application

- Great protection for when there is a high risk of theft
- Ideal for protecting good-quality bicycles

Tips

- You can order this lock keyed alike, which means that multiple locks match one key or one key code
- BORDO™ family: an ideal combination of resistance, security, flexibility, and travel size
