Combiflex™ 2503/120 without bracket

SMALL, LIGHTWEIGHT AND HANDY

Skis are left unattended in front of the ski hut for a short time, and helmets hang unsecured from bicycle handlebars - thefts happen in situations like these.

The Combiflex special lock from ABUS prevents your equipment from being easy prey for thieves. The compact lock secures items with a retractable cable. It is easy to stow in your jacket pocket. This is how to secure your skis or snowboard when you stop at an alpine hut. On a bike tour, it is suitable for connecting your helmet to your bike for a short time, so that no one can steal it in passing.

Technologies

- Automatically rolling up cable
- Individually settable code
- Case in attractive mobile phone format

Use and application

- Compact roll-back cable lock as prevention from occasional theft and unauthorized use
- Perfect protection for luggage, sport equipment like skis, snowboards, skates and bicycle helmets
