

EXTREMELY LONG - EXTREMELY SECURE

Just like quad bikes and all-terrain vehicles (ATVs), snowmobiles need to be properly secured against unauthorised use or even theft.

In addition to various lock-chain combinations, our security experts have developed a U-lock solution that is specially adapted to the needs of snowmobile riders.

The 37/55 Snowmobile U-Lock offers highly secure protection against unauthorised use or even theft by enclosing the crawler track with the lock bracket. In doing so, the ABUS-Plus locking system protects against attack through ingenious lock-breaking methods.

Technologies

- 7/16" specially hardened lock bracket with double-locking mechanism
- Extremely long U-lock
- ABUS-Plus locking system against ingenious lock-breaking methods
- New Black Granit® coating for even more corrosion resistance
- Body and shackle coated for optimum inner and outer corrosion protection
- Shackle and body made from hardened alloy steel
- Shackle double bolted in the lock body
- Two keys are supplied with the lock, one LED-lighted
- ABUS Code Card for additional or replacement key

Snowmobil 37/55HB535

Use and application

- Protection of snowmobiles against a high risk of theft from brute force and ingenious lock-breaking methods

Tips

- You can order this lock keyed-alike with other locks, allowing you to use a single key in conjunction with multiple locks/locking mechanisms
- Now with an additional neoprene bag to protect against snow

Technical data - Snowmobil 37/55HB535

Locking type	key
Weight [lbs]	2.76 lbs
color of facets	yellow
