

FOR THE HIGHEST SECURITY USE FOR EXTREME CORROSION PROTECTION

The 37ST/55 Granit padlock provides reliable security for a variety of applications, including securing halls, doors, gates in proximity to water, and even boats.

Crafted from stainless steel, both the lock body and shackle remain impervious to rust, ensuring durability in harsh weather conditions.

Featuring the ABUS-Plus disc cylinder, this padlock offers a remarkably high level of protection against tampering attempts. Its production adheres to the rigorous European standard CEN class 4, and all Granit products are proudly manufactured in Germany.

Choose between a code card for swift and hassle-free key duplication or a security card for complete control over the number of keys in circulation. With Granit, you have the assurance of superior security and quality.

Technologies

- ABUS-Plus disc cylinder: highest protection against manipulation
- Massive lock body and shackle made of stainless steel
- Inner components made of non-corrosive materials
- SZP: comes with security card to protect against unauthorized key duplicates
- 2 keys

Use and application

- To secure valuables/goods of greater value or at a high risk of theft
- Ideal for use in severe weather conditions (e.g. in coastal regions or ports)
- Certified and approved padlock
- To secure e.g. warehouses, industrial sites, factory gates, containers and lorries
