

HARDENED STEEL FOR EXTRA STRENGTH

Introducing the Versatile 110 Hinged Hasp: Your Ideal Choice for Corner-based Security.

Designed for safeguarding items like boxes, chests, cabinets, and garden storage units, our 110 hinged hasp excels where corner attachment is crucial. Crafted to perfection, this solution boasts a hardened steel staple, elevating its resistance against forceful attempts. Concealed screws upon installation and protected hinge pins contribute to its robust defense mechanism. Remember, the more time it takes for a potential intruder to breach security, the more likely they are to abandon their efforts and seek easier targets.

Technologies

- Tough steel construction
- Hinge pins protected against attack
- Hardened staple
- Hidden screws

Use and application

- Suitable for doors not closing flush, i.e. door leaf and door frame are not level
- To be used with a padlock
